OUR STORY

Protect your beloved.

Founded by a team with over fifteen years of hands-on experience, we're constantly innovating and pushing boundaries. Verleno isn't just about premium protection — we live the culture. From Cars & Coffee to international shows, we proudly support the automotive community through events, partnerships, and collaborations. At Verleno, we don't just protect paint — we protect passion.

Drive with confidence. Drive with Verleno.

OUR PPF QUALITIES

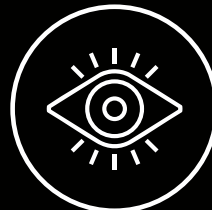

WARRANTY

Backed by our warranty for assured performance and complete peace of mind for you and your beloved.

SUPER CLEAR FINISH

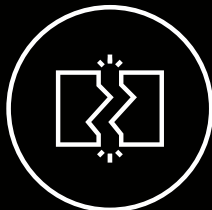

Ensures a super clear finish that maintains optical transparency, preventing haze or cloudiness from developing over time.

HYDROPHOBIC

This allows water to bead up and roll off the surface, making cleaning easier and preventing water spots.

PREVENT SHATTERING

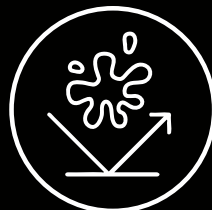

Reinforcement of the glass surface, preventing it from shattering on impact and enhancing safety and security.

ANTI-YELLOWING

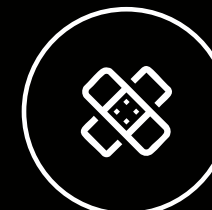

Prevention of the film from yellowing over time, avoiding discolouration of the underlying paintwork.

STAIN FIGHTING

Protects your vehicle from contaminants such as acid rain, bird droppings, tree saps and insect splatters.

SELF-HEALING

Self-healing properties make scratches disappear. The protection film heals itself from light scratches and swirls.

ANTI-FOGGING

This prevents condensation from accumulating, maintaining clear visibility and reducing the need for frequent wiping.

ELITE SERIES

Premium gloss paint protection film.

The Advanced Elite Paint Protection Film combines the highest durability and clarity in the market. Constructed from a combination of special elastomeric polymers, a clear coat that self-heals to eliminate swirl marks and fine scratches. These swirl marks and fine scratches can occur through daily driving or regular car washing and drying. With a light heat application, scuffs and light scratches on the surface of the film disappear within minutes, leaving your protection film pristine and your vehicle like-new.

OFFERING 24", 30", 36", 60", 72"
FILM THICKNESS 7.5 MILS

10-YEAR WARRANTY

COATING

MIST SERIES

The first satin PPF series on the market.

Mist Series Paint Protection Film offers the same industry-leading durability and self-healing technology, now available in refined matte and satin finishes. A light application of heat erases minor imperfections, keeping the film — and your vehicle — looking pristine. With a choice of finishes, Mist Series allows for complete customization without sacrificing protection or performance.

OFFERING 300+ COLOUR OPTIONS

DARK SHIELD

Headlight + taillight protection
with a sleek tinted look.

Dark Shield Protection Film is specifically engineered for headlights and taillights, combining robust protection with a sleek, tinted appearance. Available in 50% and 25% visible light transmission (VLT) options, Dark Shield defends against chips, scratches, and UV damage while enhancing the style and depth of your lighting elements. Built with the same self-healing, impact-resistant technology as our leading PPF lines, it ensures lasting clarity and performance.

WINDOW TINTS

Advanced solar & UV protection
for ultimate comfort and style.

Our Window Tint Series offers advanced solar and UV protection, delivering exceptional heat rejection, glare reduction, and interior preservation. Engineered for ultimate comfort and style, these films block harmful UV rays while maintaining crystal-clear visibility and a refined aesthetic. Our tints provide a cooler, more comfortable driving experience without compromising the look or integrity of your vehicle.

THE LOWER THE LIGHT TRANSMISSION RATE, THE DARKER THE FILM.

HOME SECURITY FILM

Protect your home with safety and privacy films.

Verleno home security films deliver unmatched strength, clarity, and performance for home security. Engineered from a proprietary blend of impact-resistant polymers, this cutting-edge film reinforces windows against forced entry, shattering, and everyday wear. Its self-healing surface resists abrasions, scratches, and scuffs, maintaining a polished, unobtrusive finish that enhances — rather than obstructs — your home’s aesthetic.

VE CUT SOFTWARE

Precision-cut PPF templates for all vehicle models.

VE Cut provides up-to-date patterns for precise fitting on a wide range of car models. The user-friendly interface makes it easy to navigate, and the software allows for unlimited cuts, ensuring flexibility and adaptability in PPF installations for both exterior and interior applications.

CUSTOM DESIGNED FILM PATTERNS FOR QUICK, ACCURATE, AND SEAMLESS INSTALLATIONS.

PROTECT YOUR BELOVED

A close-up, low-angle shot of a dark-colored car, likely a luxury sedan, showing the roofline and side panels. The car is positioned diagonally across the frame. In the bottom right corner, a portion of a multi-spoke alloy wheel is visible. The background is a soft, out-of-focus gradient of warm colors, suggesting a sunset or sunrise sky.
